Accounts Receivable Technologies is Awarded Honda Financial Services' Batch Champion Award for 2004-2005

WOODBIDGE, NJ, January 19, 2006 – Accounts Receivable Technologies (AR Tech), a leading provider of accounts receivable management and call-center services, today announced that it has been awarded the Batch Challenge Champion Award by Honda Financial Services for the 2004-2005 period.

“We are honored to receive this reward from Honda Financial. We appreciate their business, and the recognition of our hard work and dedication to their account,” said Paul Errigo, Co-Founder and Executive Vice President for AR Tech. “We are consistently a top performer for most of our clients, but not all of them have recognition programs and awards. It makes our entire staff feel good about their daily efforts, and it is a great reward to share with everyone.”

Mike Petrone, Agency Manager for Honda Financial Services, presented the award at AR Tech's corporate office in Woodbridge, NJ. "On behalf of Honda Financial Services, I am pleased to recognize AR Tech as our top End of Term agency of the year," Petrone said. "AR Tech remains best class by consistently exceeding our goals and expectations and driving up liquidation."

Errigo noted that AR Tech has been a leader in automotive portfolio recoveries since 1993, with a specialty division for End of Term Lease collections. Since inception, they have been undefeated in champion challenger programs on EOT portfolios, and continue to raise the bar for client expectations. They have pioneered a method to combine customer service with collections, which has proven to be an unbeatable formula for EOT accounts.

About Accounts Receivable Technologies (AR Tech)

Founded in 1993 and headquartered in Woodbridge, NJ, Accounts Receivable Technologies continues to be a leading national provider of accounts receivable management services, including customer service outsourcing, pre-collection, debt collection, and call-center activities.
